

profondità scavi / depth of excavation 50 cm.

The diagram illustrates a three-phase power distribution system. A central three-phase source, represented by a circle with three lines at 120° angles, is connected to three separate three-phase loads. Each load is represented by a square with internal components and dimensions. The system is enclosed in a cloud-like boundary. Two inset diagrams show detailed views of the three-phase loads, highlighting their internal wiring and dimensions.
